

Quality Assurance

from mine to field

Raw Materials

It starts with extracting different raw materials from ICL's mines.

4 countries

Quality Control

We maintain high standards with checks at each production phase.

- Controlled release fertilizers**
- ✓ roundness, hardness & diameter
 - ✓ release patterns
 - ✓ NPK & trace elements
 - ✓ longevity
 - ✓ segregation

- Water soluble fertilizers**
- ✓ nutrient contents
 - ✓ texture
 - ✓ solubility
 - ✓ solution color

10 production facilities

250.000 tests per year

150 quality and R&D employees

Safe Handling

To ensure the fertilizers reach you in the best possible state.

Optimal packaging & delivery

Cool & dry conditions
